

New Energy Program

RISC, Inc. has teamed up with Zurich to offer new energy program.

Features general liability, commercial auto and umbrella.

Program Features:

- Our program is designed for “land based” oil and gas exploration, production and servicing accounts.
- Non-admitted/surplus lines for greater flexibility in forms, coverages, rates and fees.
- We offer full policy limits for time element pollution, underground resources, blowout, cratering, explosion and underground equipment.
- Mobile equipment (over-the-road) coverage for work-over/servicing rigs.

Target Classes:

- Oil & Gas well operators
- Non-operating working interest in oil & gas wells
- Contractors of the following types:
 - ◆ Drilling
 - ◆ Geographical services
 - ◆ Roustabout services including site preparation and lease beautification
 - ◆ Welding
 - ◆ Cleaning and swabbing
 - ◆ Wire line services
 - ◆ Service contractor including workover
 - ◆ Pipeline contractors – excluding transmission line contractors
 - ◆ Lease/rental of oilfield tools and equipment, both above ground and down hole
 - ◆ Oil & Gas support classes such as machinery & equipment distributors, domestic pipe distributors and chemical distributors
 - ◆ Independent contractors classified as oil lease operations by contractor providing information gathering services for well owners.

We offer coverage for companion products through other divisions of RISC, Inc.

Prompt service/fast turn around
