If so, who and how many? _____

26. Do they have written guidelines on personal use of company vehicles? Yes No

27. Do they allow family members to drive the company cars? Yes No
28. Do they report personal usage as additional income? Yes No

DEFINITIONS

Construction Manager – Construction management takes two forms - "pure agency" construction management and "at risk" construction management. "A pure agency construction manager" is an agent of the owner, neither designing nor constructing the project. Instead, the manager administers the construction contract throughout the planning, design and construction phases of the project. An "at risk construction manager" provides construction advice and construction leadership on a project during the planning and design stages and also provides construction leadership, contract management, direction, supervision, coordination and control of the work during the construction phase.

General Contractor is a contractor who subcontracts work to others in excess of 50% of their total receipts, exercises primary control of the job site, and is named in the construction documents as the general contractor of record.

Habitational work: Condominiums, triplexes, duplexes and townhouses.

Prime Contractor: Any contractor on a project having a contract directly with the owner. The principal contractor on a project.

Subsidence: Any movement of land or earth including: landslides; mudflow; earth sinking, rising, and shifting; collapse or movement of fill, earth settling, slipping, falling away, caving in, eroding or tilting; and earthquake.

Wrap-up (OCIP): A policy providing coverage(s) for all interests in a major construction project. Also known as an OCIP (Owner Controlled Insurance Program or a CCIP (Contractor Controlled Insurance Program).
